In fiscal year 2011, more than 8,000 donors partnered with UAMS and contributed more than $33 million to advance our mission, assuring that UAMS remains a model for modern health care in addition to continuing to excel as a leader in academic medicine.
Engaging in Activities that Result in Better Health

Through the years, UAMS has transformed from a small medical school with a charity hospital into one of the nation’s leading academic health and research centers.

Today, UAMS, the home of Arkansas’ only teaching hospital and clinics covering every medical specialty, continues to improve the health of Arkansas and our region.

In addition to our UAMS Medical Center hospital and clinics, UAMS includes five colleges, a regional campus in northwest Arkansas and a graduate school, eight Area Health Education Centers (AHECs), seven institutes of excellence and eight satellite Centers on Aging.

UAMS has more than 2,800 students and 775 medical residents. It is the state’s largest public employer with more than 10,000 employees, including more than 1,000 physicians and other professionals who provide care to patients at UAMS, Arkansas Children’s Hospital, the VA Medical Center, the AHECs and Centers on Aging throughout the state.

The hospital and outpatient clinics work in concert with the institutes of excellence to provide medical and translational research and treatment of cancer, eye, spine, aging, myeloma and psychiatric conditions. Its research and educational programs inspire new knowledge that results in better diagnoses and more advanced patient care.

Our overarching purpose at UAMS is to engage in activities that result in better health – through education and training of health professionals, discovery of new knowledge through research, and translation of that knowledge into improvements in health and economic development.

Those activities require multiple funding streams. While it is true that UAMS receives funding from the state of Arkansas, it is only 9 percent of our budget. As state budgets are tightened and federal grants become increasingly more competitive, private support from friends and supporters is vital to providing the margin of excellence for public institutions like UAMS.

Thank you for your continued partnership with UAMS. Your commitment, support and advocacy are crucial to advancing our mission.

As this report illustrates, your support has helped elevate UAMS to new heights. I am grateful for your confidence in us and look forward to seeing what else we can accomplish together.

Best Regards,

Dan Rahn, M.D.
Chancellor, University of Arkansas for Medical Sciences
As the new vice chancellor for development and alumni affairs, I am honored to work with such distinguished colleagues and dedicated partners.

While I did not have the pleasure of being here during the past fiscal year, I am encouraged as I review the year’s highlights, and I am grateful for you and the thousands who support UAMS.

Your remarkable philanthropy has provided the intrinsic foundation for advancing UAMS to national and international acclaim as a premier comprehensive academic medical center.

Each and every gift is important to our mission and charts an inspired pathway toward transforming the future of health care.

The generosity of our donors and volunteers has been at the heart of establishing an institution that provides expert care for patients throughout the world as well as strengthening the professional education, cutting-edge research and outreach programs at UAMS.

On behalf of UAMS, I’d like to extend our heartfelt appreciation to you, our friends and supporters who have become part of the UAMS family. I find your extraordinary spirit of giving and sincere desire to make an impact to be inspirational.

The financial charts included in this report are a numerical representation of philanthropy at UAMS during fiscal year 2011.

Thank you for your continued support.

Lance Burchett
Vice Chancellor, Office of Development & Alumni Affairs
Executive Director, UAMS Foundation Fund
The following financial statements cover the 2011 fiscal year (July 1, 2010 through June 30, 2011). The charts and graphs summarize all UAMS Foundation Fund assets for the 2011 fiscal year.

**2011 Financial Statement and Fundraising Results**

**FY 2011 AT A GLANCE**

- **Total Contributions:** $33,286,353
- **Total Number of Donors:** 8,292
- **Total Number of Gifts:** 13,808
- **Average Gift:** $2,410

**Gifts by Purpose**

- **Facilities:** 19.56%
- **Unrestricted:** 46.71%
- **Research:** 14.62%
- **Patients:** 8.86%
- **Outreach:** 7.24%
- **Faculty:** 5.28%
- **Students:** 1.73%

**Gifts by Source**

- **Friends:** 33.44%
- **Foundations:** 36.72%
- **Corporation:** 12.28%
- **Alumni:** 6.09%
- **Trust/Estate:** 1.06%
- **Other:** 0.42%

**Results by Gift Level**

- **$999 and less:** 2.96%
- **$1,000-$9,999:** 7.05%
- **$10,000-$99,999:** 12.70%
- **$100,000-$499,999:** 13.37%
- **$500,000-$999,999:** 21.12%
- **$1,000,000 Plus:** 30.00%

- **Number of Gifts by Gift Level**

- **$999 and less:** 12,410
- **$1,000-$9,999:** 171
- **$10,000-$99,999:** 29
- **$100,000-$249,999:** 15
- **$250,000-$499,999:** 6

The University of Arkansas for Medical Sciences (UAMS) celebrated $385 million raised in its seven-year Campaign Imagine comprehensive campaign that funded new and larger facilities while expanding patient care, research and education programs.

UAMS Chancellor Dan Rahn, M.D., announced the total raised in the largest campaign in the institution’s 131-year history. The $385,133,218 raised surpassed the $325 million campaign goal, including the gifts of more than 32,000 campaign donors.

Donations to Campaign Imagine provided funds for numerous construction projects both on the Little Rock campus and at the UAMS Northwest campus in Fayetteville. The campaign funded endowed chairs and professorships, scholarships, research programs and medical equipment.

“Philanthropic support has been an integral part of the success and transformation of this great institution,” Rahn said, thanking all who have given to UAMS. “Philanthropy has helped create and expand our institutes and the programs that provide expert care for patients.”

The 32,529 campaign donors came from all 50 states, the District of Columbia, Puerto Rico and 15 countries. Nearly 70 percent of those donors (21,842) were new UAMS supporters. Those new donors gave $49.1 million of the total.

Campaign Imagine helped fund $153.4 million in construction of new or expanded facilities. These included the Pat and Willard Walker Eye Research Center, the Psychiatric Research Institute, the Donald W. Reynolds Institute on Aging expansion, a new state-of-the-art hospital, the expansion of the Winthrop P. Rockefeller Cancer Institute, the Leland and Betty Tollett Retinal and Ocular Genetics Center in the Jones Eye Institute, and a regional campus in northwest Arkansas for the colleges of Medicine, Nursing, Pharmacy, Public Health and Health Related Professions.

The campaign also: Endowed 35 chairs and professorships, Provided $49.7 million for faculty and student support, Funded $68.2 million in research, PROVIDED $89.1 million for statewide program support.

“The unparalleled success of this campaign is proof of the value that supporters place on UAMS and its mission,” Rahn said. “Since UAMS receives only 9 percent of its funding from the state, private support from philanthropists continues to be vital to our ability to fulfill our mission.”

Rahn credited the work of longtime UAMS supporters Hugh McDonald, E. Lee Ronnel, Judith Snowden, Debbie Walker, and the late Bill Clark, all of whom served on the Campaign Imagine Steering Committee. He also thanked the many UAMS board members and other volunteers who helped the institution reach this goal.
Year In Review

Generous supporters and volunteers from across the state and region help advance our mission at UAMS. Below is a sampling of news and events from the year (July 1, 2010 to June 30, 2011).

July 2010

**Cancer Institute Dedicated New Tower**
Cancer survivors from across Arkansas and beyond were celebrated at the dedication ceremony of the 12-story expansion to the UAMS Winthrop P. Rockefeller Cancer Institute. The 300,000-square-foot building doubled the institute’s capacity for research, treatment and outreach.

August 2010

**$500,000 in Gifts For Fight Against Neurological Diseases**
Two $250,000 gifts, one in honor of Frances Ernareeth (Reese) Adkins Barnes, were given to the Major and Ruth Nodini Endowed Chair in Neurology. The endowed chair was established by donations from friends and family members of Robert Leroy “Lee” Archer, M.D., a professor in the UAMS College of Medicine’s Department of Neurology. The chair allows Dr. Archer to continue his research of neurological diseases and his treatment of patients with those diseases.

September 2010

**Institute on Aging Celebrated 10-Year Anniversary**
The UAMS Donald W. Reynolds Institute on Aging celebrated its 10-year anniversary with several events. Since being established, the Reynolds Institute on Aging has benefited thousands of older Arkansans and it has earned a national reputation for its clinical, research and educational programs.

**Rahn Invested in Harry P. Ward Chancellor’s Chair**
Chancellor Dan Rahn, M.D., was invested as the second recipient of the Harry P. Ward Chancellor’s Chair. Created in 2005, the Ward chair became the first chancellor’s chair endowed at an Arkansas university. I. Dodd Wilson, M.D., who succeeded Harry P. Ward as chancellor in 2000, was the inaugural recipient.

October 2010

**Children’s Playground Opened At Psychiatric Research Institute**
Sometimes, a playground is more than just a playground. The Psychiatric Research Institute’s children’s playground, from its padded, rubberized surface to its specially designed equipment, affords the young patients of the Child Diagnostic Unit a safe and comfortable place to play while being observed by the unit’s staff as part of their therapeutic evaluation.
Murphy Named Dean of College of Health Related Professions
Experienced academic health sciences administrator Douglas L. Murphy, Ph.D., was named dean of the College of Health Related Professions at UAMS. The College of Health Related Professions offers 21 academic programs in 11 departments from audiology to surgical technology.

November 2010
Ceiling-Tile Breaking Marked Aging Institute’s Expansion
Leaders at UAMS used hammers to break ceiling tile in a ceremony that marked the start of a four-floor expansion at the Donald W. Reynolds Institute on Aging. The 55,000-square-foot expansion, on top of the existing four-story institute, is funded by a $30.4 million grant from the Donald W. Reynolds Foundation, announced in June 2009. When construction is completed in early 2012, the additional space will enable the institute to greatly expand its education, research and interdisciplinary training programs.

Aromatique Sale Benefited UAMS Patients and Families
Long lines reminiscent of Black Friday sales wrapped outside the main lobby at the UAMS Medical Center as shoppers browsed dozens of tables of discounted Aromatique merchandise. The sale benefitted the Medical Center Auxiliary, which uses the proceeds to directly support patients and families at UAMS.

December 2010
UAMS Northwest Received $650,000 from Walmart Foundation
Students at the UAMS Northwest campus in Fayetteville will be more closely connected to the UAMS campus in Little Rock through distance learning technology funded by a $650,000 grant from the Walmart Foundation.

January 2011
UAMS Received $370,000 for Geriatric Nursing
The Arkansas Hartford Center of Geriatric Nursing Excellence (HCGNE), part of the UAMS College of Nursing, received a nearly $370,000 grant to increase the number of geriatric nursing faculty in Arkansas.

Researcher Zhou Named Winthrop Rockefeller Chair
Daohong Zhou, M.D., was invested as the inaugural recipient of the Winthrop Rockefeller Endowed Chair for Leukemia and Lymphoma Research.

Two UAMS Geriatrics Professors Honored With Investitures
Two University of Arkansas for Medical Sciences (UAMS) geriatrics professors were honored with investitures made possible by two philanthropic Arkansas families. Robert R. Wolfe, Ph.D., a professor in the UAMS Donald W. Reynolds Department of Geriatrics, and director of the Center for Translational Research in Aging & Longevity, was the recipient of the Jane and Edward Warmack Chair in Nutritional Longevity. Paula M. Podrazik, M.D., an associate professor in the department, was the recipient of the Magalene McKinnon Ingram Professorship in Geriatric Education.
February 2011

Students’ Friendship Led to ALS Fundraiser
A strong friendship among four 12th-grade students led to an $8,073 check presentation for ALS research at UAMS. When best friends of Adam Deacon learned that his mother, Leanne Deacon, had ALS, they wanted to show their support. They enthusiastically accepted Christian Biggs’ idea of an ultimate Frisbee tournament fundraiser that initially was to involve their church and friends. ALS, also known as Lou Gehrig’s disease, is a disease of the nerve cells in the brain and spinal cord that control voluntary muscle movement. There is no known cure for ALS, but translational research and clinical trials conducted at UAMS help create new treatments and provide hope for ALS patients and their families.

Dean Winters Honored with Title and Scholarship
The last day of his 28 years as a UAMS dean held several surprises for Ronald Winters, Ph.D. At a reception in his honor, he was appointed dean emeritus of the UAMS College of Health Related Professions. In addition, a conference room in the Administration West building was named for him and a scholarship was endowed in his name. He was the second-longest serving dean of an allied health school in the United States.

UAMS College of Pharmacy Received $1 Million Gift
The UAMS College of Pharmacy received a $1 million gift from a graduate and her husband to establish an endowed chair in pediatric pharmacy. The gift created the Jeff and Kathy Lewis Sanders Endowed Chair in Pediatrics within the UAMS College of Pharmacy. It supports the program’s efforts in education, research and faculty development. Jeff and Kathy Lewis Sanders, native Arkansans who now live in Texas, gave the gift to ensure the best possible pharmacy care for children and families for future generations.

Lyons Gave $1.5 Million to UAMS Reynolds Institute on Aging
Jane and Frank Lyon Jr., donated $1.5 million to the UAMS Donald W. Reynolds Institute on Aging. The gift gave a significant boost toward the required matching funds for an expansion project scheduled for completion in early 2012. Frank Lyon noted that his parents, Frank and Marian, and Jane’s parents, Henry and Helen Thomas, all were beneficiaries of the advanced geriatric care provided at the Reynolds Institute on Aging.

March 2011

Arkansas Blue Cross Pledged $1 Million to UAMS Primary Care Scholarships
In a rural state with an aging, mostly medically underserved population, Arkansas’ only medical school and the state’s largest insurer teamed up to improve access to health care. The grant is meant to increase the number of primary care physicians in the state. The gift created scholarships for medical students pledging to practice primary care in Arkansas, preferably in the more rural parts of the state.
Sculpture Unveiled at UAMS Cancer Institute Honors Bookout
The late Sen. Jerry Bookout, a longtime Arkansas legislator and health care proponent, was honored at a ceremony at UAMS. Bookout’s family was joined by Gov. Mike Beebe, current and former members of the Arkansas Legislature and UAMS officials for the unveiling of a sculpture dedicated to his memory. Titled “Transformation,” the sculpture is located in the Bookout Translational Research Center on the fourth floor of the UAMS Winthrop P. Rockefeller Cancer Institute.

April 2011

UAMS Celebrated Topping Out at Institute on Aging
The UAMS Donald W. Reynolds Institute on Aging celebrated placement of the final beam of its four-story, $27.9 million expansion. Built atop the existing Reynolds Institute on Aging building, the 55,000-square-foot expansion is scheduled for completion in early 2012. It will give the institute a total of eight floors and greatly expand its capacity for education and research programs.

Paintings With Healing Message Donated to Child Study Center
A series of paintings designed to help children cope with their fears was created by Little Rock artist Jane F. Hankins and donated to the UAMS Child Study Center. Art is a powerful force, one that can be beneficial to those in need of some form of relief from overpowering health issues and concerns. No one knows this better than the faculty and staff of the Child Study Center, a division of the UAMS Psychiatric Research Institute. Beginning with patients as young as 2, the Child Study Center housed on the campus of Arkansas Children’s Hospital, provides comprehensive diagnostic evaluations and treatment for youth with behavioral, emotional, learning and adjustment difficulties.

May 2011

UAMS Honored Fred W. Smith and Graduated New Health Care Professionals
UAMS awarded certificates and degrees to 862 graduates of its five colleges and graduate school during its commencement ceremony at Barton Coliseum. Fred W. Smith, chairman of the Donald W. Reynolds Foundation Board of Trustees, received an honorary doctorate in recognition of his longtime support of UAMS and better health for Arkansans. Smith has been chairman of the Reynolds Foundation Board of Trustees since 1992. Under Smith’s leadership, the foundation has awarded more than $1.5 billion in grants, including more than $413 million in Arkansas and more than $82 million to UAMS.
ALS Research at UAMS Boosted by Paul Dunn Golf Classic
Now in its 11th year, the Paul Dunn Golf Classic has raised more than a quarter of a million dollars in support of research at UAMS seeking better treatments and a cure for amyotrophic lateral sclerosis (ALS). The tournament, held at the Maumelle Country Club, was held in memory of Dunn and others who have fought ALS, also known as Lou Gehrig’s disease. More than $35,000 was raised this year, bringing it to about $280,000 raised to date to benefit research programs through the ALS Clinic and the J. Thomas May Center for Amyotrophic Lateral Sclerosis Research at UAMS.

Kentucky Derby Watch Party Benefited UAMS Preemies
Hundreds of supporters participated in the eighth annual Julep Cup Jaunt that benefited the Neonatal Intensive Care Unit at UAMS, which specializes in the care of fragile newborns. Sponsored by the UAMS Consortium, the event has become central Arkansas’ premier Kentucky Derby watch party and silent auction.

June 2011

Drs. Wei and Riggs Honored With Endowed Chairs
Gifts from two prominent Arkansas families honored UAMS’ Jeanne Y. Wei, M.D., Ph.D., and Ann T. Riggs, M.D., with endowments to support their work in geriatrics. Wei, executive director of the UAMS Donald W. Reynolds Institute on Aging and professor and chair of the Donald W. Reynolds Department of Geriatrics in the College of Medicine, received the Jackson T. Stephens Chair in Geriatrics. Riggs, associate professor and vice chair for clinical affairs in the Donald W. Reynolds Department of Geriatrics and medical director for the Thomas and Lyon Longevity Center at the Reynolds Institute, received the Alexa and William T. Dillard Chair in Geriatrics.

Nurse Left $100,000 for Neonatal Intensive Care Education at UAMS and ACH
A longtime neonatal intensive care nurse left $100,000 in her will for nurse education at UAMS and Arkansas Children’s Hospital. Pam McMillian, a registered nurse at UAMS and ACH for nearly 30 years died after battling cancer. McMillian was also alumna of the UAMS College of Nursing.

JEL Unveils New Genetics Center
The integration of the cutting-edge field of genetics into state-of-the-art eye care and research was unveiled the UAMS Harvey & Bernice Jones Eye Institute. The Leland and Betty Tollett Retinal and Ocular Genetics Center, occupying the previously unfinished eighth floor of the Jones Eye Institute, is the result of $3 million given in 2010 by the Tollett family. The center is the only one of its kind in the region, and puts the Institute on the leading edge nationally for merging medical genetics into ophthalmologic care.
The University of Arkansas Foundation Inc. is a 501(c)(3) corporation, Tax ID 71-6056774.
